

Get Groovy FREE for 12 months!

Oracle is providing free access to Oracle Financial Statement Planning, including Strategic Modeling, to all existing Oracle Planning Cloud customers for the next 12 months. This includes the use of Groovy.

You would be able to purchase Financial Statement Planning and Scenario Modeling if you choose to continue using it. Alternatively, your right to use Financial Statement Planning and Scenario Modeling will expire after April 30th, 2021.

And yes, Hackett Consulting is a preferred provider to help you take advantage of this.

The Oracle FAQ will provide answers to your most of your questions. If you would like to take advantage of this, let's get the ball rolling! If you are a do-it yourselfer, the following classes will kickstart your ability to implement Groovy.

- Mastering The EPM Planning Javadocs
- Groovy for EPM Cloud Planning
- Groovy for EPM Cloud Planning (Grid Builders Only)
- A REST API offering will be available next month

Try it out for free getting a few samples.
